

Cost of Funds Peer Comparison

Cost of funds is one metric that is used to determine the health and performance of a bank. Haberfeld tracks and analyzes this data point along with many others across all the clients we serve.

Would you like to see a 25% reduction on your overall cost of funds? Our clients' cost of funds is 14% higher than UBPR peers at launch, but see immediate improvement. By year five, our clients' cost of funds is 15% better than UBPR peers. Imagine what a partnership with Haberfeld could do for your cost of funds!
