# What Is Video Banking?

For customers, video banking is as easy as FaceTime. For financial institutions, video banking can complete 90% of banking interactions.

## Seamlessly Collect Signatures

Customers can sign documents remotely and via signature pad using your native eSignature platform.

## Securely Verify Documents

Financial institutions can collect and verify documents quickly and securely without needing an in-person visit.

## Easily Rotate Employees

Invite other departments into a call to complete the transaction rather than scheduling a new appointment.

Building better experiences for community banks and credit unions since 2012
